[redacted] 25X1

22 September 1948

25X1

Chief, FBIB

Letters dated 1 September and 8 September, 1948 from [redacted] 25X1

25X1

1. This office has informed [redacted] of the cable received from the Commander in Chief, Far East Command, authorizing his entry into Tokyo, and the further action taken by this office in connection with securing FEC clearance for [redacted] It is anticipated that you will be able to secure clearance for both [redacted] 25X1 [redacted] from RYKOM upon your arrival on Okinawa, and that you will have taken the necessary steps to arrange formal military clearance of RYKOM and FEC for [redacted] entry into Tokyo by 15 October. 25X1

2. In the event that you are unsuccessful, it will of course be necessary for [redacted] to remain in the United States until such date as housing has been made available for the wives of FBIS personnel stationed on Okinawa. The administrative arrangements necessary for [redacted] embarkation from the United States will be carried through on the assumption that clearance will be obtained by you for her to enter Tokyo, thereby obviating any last minute delay in her departure. 25X1

3. In connection with your letter of 8 September to [redacted] 25X1 in which you suggest [redacted] explore the prospects of procuring code operators and any other qualified assistants while in Tokyo, it is pointed out that you will be provided with three SP-8 engineer aides to assist in the installation of technical equipment at the Okinawa station, and it is the opinion of this office that under the supervision and guidance of [redacted] and with the assistance of [redacted] it will be unnecessary for Japanese nationals to be employed in connection with this work. 25X1

4. It is felt at this time that insufficient knowledge has been obtained as to the requirements for code monitors on Okinawa, since the extent of code broadcasts to be covered has not as yet been determined. It is therefore suggested that [redacted] should not devote too much time while in Tokyo to screening possible code monitors for Okinawa. 25X1

This document part of classified integrated file. NAME CHECK required prior to individual classification action. 25X1
